

Higg FEM Training

E-Learning Courses by NOTES

NimkarTek NOTES

The NOTES Platform is a go-to online training platform developed and managed by NimkarTek. Started in 2012, NOTES offers accessible, affordable, interactive Online courses for the Textile, Apparel, Footwear and Leather industries, in areas related to Restricted Substances and Chemical Management.

NimkarTek's Training Program on Higg Facility Environmental Module (FEM) introduces the learner to SAC and the Higg FEM - its purpose, structure, evolution and scoring. This training is structured in 2 courses. The Learner will be introduced to the 'Higg Facility Environmental Module in the first course and will be given an overview of the sections to be filled in the Higg FEM Self-assessment in the second course.

Price - USD 120

Course Structure

1. Introduction to Higg FEM
2. Introduction to Higg FEM Environmental Impact Sections

Course Features:
