

Higg FEM V4.0 Training

E-Learning Courses by NOTES

NimkarTek NOTES

The NOTES Platform is a go-to online training platform developed and managed by NimkarTek. Started in 2012, NOTES offers accessible, affordable, interactive Online courses for the Textile, Apparel, Footwear and Leather industries, in areas related to Restricted Substances and Chemical Management.

The 'Higg Facility Environmental Module' or the Higg FEM is a sustainability assessment tool developed by the Sustainable Apparel Coalition (SAC) that standardizes how facilities measure and evaluate their environmental performance, year over year.

The latest version of the Higg FEM - Version 4.0 has been launched in November 2023.

NimkarTek's E-learning courses on Higg FEM provides individuals and organizations proper training and expert insight into the Higg FEM. The training covers all 7 environmental impact areas as outlined in the Higg FEM.

NIMKARTEK'S HIGG FEM COURSES

1. Individual Courses
2. Certificate Training Program

NimkarTek's Training on Higg FEM V4.0

As we transition from Version 3.4 to Version 4.0, we know that several companies in the Textile, Leather and Apparel Industry will require the additional training and support to ensure they are able to implement all sustainability practices within their company practices.

NimkarTek's Training Program on Higg FEM provides individuals and organizations proper training and expert insight in understanding and implementing the Higg FEM – Version 4.0.

The Training offers practical guidance that will help Facilities with its implementation. The trainings are developed for the Industry with a view to help facilities improve their performance and achieve good scores.

NimkarTek will offer e-learning courses on all Higg FEM Environmental Impact Areas -

- Site Info and Permits
- Environmental Management Systems (EMS)
- Energy and GHGs
- Water Use
- Wastewater Management
- Air Emissions
- Waste Management
- Chemicals Management

Course Features:

- The trainings will cover all 3 levels within the Higg FEM.
- Course length:
 - Each Individual Course is of 1 – 1.5 hour Duration
 - The Certificate Program on Higg FEM is 20+ hours of training
- Language: English and Chinese
- Access Duration: 6 months from the launch of the 1st course
